Gentlemen,

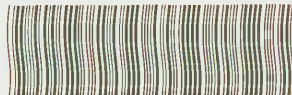

BE pleased to take notice, That those so famous Lozanges or Pectoralls approved for the cure of Consumptions, Coughs, Catharrs, Astma's, Hoarsnesse, and all other diseases incident to the Lungs, and a soveraign Antidote against the Plague, and all other contagious diseases, and obstructions of the stomach, are onely made and to be had of Mr. *Edmund Buckworth* at his house in *St. Katherines* street neer the Tower, and Mr. *Theophilus Buckworth* on Mile-end-green. And for more convenience to those that live remote, quantities of them sealed up with this Coat of Arms underneath, are left constantly at the house of Mr. *Richard Lowndes* at the sign of the white Lion neer the little north door of *St. Pauls* Church, Mr. *Henry Seile* over against *St. Dunstons* Church in Fleetstreet, Mr. *H: Herringman* at the Anchor in the New Exchange, Mr. *William Milward* at Westminster-Hall gate, Mr. *John Place* at Furnivals-Inne gate in Holbourne, Mr. *Robert Horn* at the Turks head neer the entrance of the Royall Exchange, Book-sellers, and no others.

THis is published to prevent the designs of divers pretenders about the City, who take the liberty to counterfeit the same, and publish them to the world in severall Pamphlets, using our form of words, to put off their indigested stuffe, to the great disparagement of us, and abuse of the people in generall. We therefore the onely experimented Authors hereof, desire all to be cautious in buying any other; and in testimony that these and onely these were the anciently (and still are) approved ones, we have hereunto subscribed our hands,
